ABOUT ME

I am a highly motivated and experienced Senior Frontend Engineer with 7 years experience building commercial products.

During this time I have gained valuable experience leading engineers in large multidisciplinary teams comprised of engineers, UX designers, Visual designers and QA testers.

I have both technical and interpersonal skills and am looking for a challenging role that utilises my previous skills and experiences.

TECHNICAL SKILL SET

Javascript, Typescript, Angular 4,
Ember, Backbone, NodeJS.
CSS3, SCSS, Mobile-first responsive.
Gulp, Grunt, AWS.
MongoDB, MySQL.
Java (Android SDK), PHP

WORK EXPERIENCE

◦ April 2016 – Present

Senior Engineer - Each&Other

- Leading development teams, delivering projects on schedule while maintaining high code quality.
- Working with UX designers and product owners to build features and ensure they meet acceptance criteria.
- Working on-site with clients and other vendors to provide technical solutions to business requirements.
- Mentoring junior members of the engineering team, giving feedback and ensuring continuous professional development.
- Lead engineer on large IoT project. Building REST APIs, Android and web app (EmberJS) to control connected lighting devices.

◦ July 2013 – April 2016

Engineer - Each&Other

Worked closely with client development teams on a range of projects including:

- CMS integrations (Silverstripe)
- Mobile apps (iOS and Android)
- Responsive web apps (Backbone)
- Worked with multidisciplinary team to deliver Each&Other's first commercial product to market (iOS app).
- Building strong working relationships with clients and co-workers.

◦ April 2012 – June 2013

Web / App Developer - Lucidity Digital

During my time at Lucidity I worked on a number of different client projects using the following technologies:

- CMS Integrations (Wordpress, Umbraco)
- iOS (Objective C) apps
- Windows Presentation Framework (Kinect for Windows SDK)
- Adobe Flash

◦ July 2011 – March 2012

Junior Web Developer - BrandTactics

I worked closely with the marketing team to create online marketing campaigns for various clients using a range of technologies:

- Joomla CMS
- Facebook SDK
- iOS (Objective C)

◦ January 2011 – June 2011

Development Intern - BrandTactics
